Southern Ontario based Singer/Songwriter Tanya Marie Harris kick started her career in Country Music the only way she dreamed she would, by heading straight to Nashville Tennessee to record on legendary Music Row with renowned producers Johnny Dwinell and Kelly Schoenfeld of Daredevil Production.

"The Opportunity to learn from and work with this team was amazing and a blessing. Kelly has worked with so many artists I admire like Sara Evans, Kenny Chesney, Jo Dee Messina and fellow Canadians the Wilkinsons to name a few." This turned out to be a smart move as Tanya's first single "A Woman Scorned" landed at number one on the Roots Music Chart in November of 2013.

Soon after arriving in Nashville Tanya was fortunate to be introduced to Hit Songwriter David Norris. The two hit it off in the writing room and co-wrote Tanya's second radio single "Second Hand Dreams" and watched it land Tanya on the prestigious Nashville Music Row Top 80 Country Breakout Chart in November of 2014.

It's been an impressive and explosive couple years for this up and comer in Country Music taking pride in now having over 400 live shows with her dedicated band under her belt. Tanya has been honoured joining concert line-ups with Dan & Shay, American Idol's Casey James, as well as Canadian Stars Chad Brownlee & The Road Hammers.

So what's on the horizon for the songstress in 2016? While continuing to tour Tanya will be digging deep and honing her writing with friends in Nashville in anticipation of a first full length album. "Barebones," is slated to feature 10 tracks with a possible release to coincide with the 2016 CCMA Awards Show, and Country Music Week in Harris' hometown of London, Ontario. She states "I want this to be my most unedited truth.....hard though as it means being truly honest with myself and allowing my raw authentic feelings to come to the surface."

Tanya is currently encouraging fans to head over to her website to get a free copy her charted single "Second Hand Dreams" via her website.
